THE POPULAR PLURALITY.

Returns of the Recent Election at Last Received From Every State—One Method of Figuring Mr. Cleveland's Lead Places It at 391,378.

NEW YORK, Dec. 22.—[Special.]—The Evening Post publishes to-night the following table giving the full vote for President in all the States. The most striking feature of these figures is the small increase of the total vote in 1892 over that in 1888.

Table showing election results by state, including columns for State, Cleveland, Harrison, and Total.

This would make Cleveland's plurality in the country 391,378. In this estimate, though, the Post credits the 85,181 votes cast for the unpledged electoral ticket in Alabama to Weaver.
